PROJECTS

Prodos, BBC, Coming Soon, Tribute Page, Survey, Landing Page
September - November / 2019
I learned the basics of HTML and CSS through different online courses such as w3school.com, freecodecamp.org, and udemy and built very basic one page websites.

Front-End Documentation, MyBlitz, WordCapm, GridTheme
December - February / 2020
I discovered Flexbox and Grid, fell in love with them, and began learning how to use them in my code to make my statuc websites fully responsive and I used different YouTube videos to learn to do these.

Codepen, Gallery, Tacojoint, Nexter
March - May / 2020
I learned about advanced CSS, Animation, Sass, NPM and BEM and built really cool looking websites that are fully responsive even though there is no bootstrap invloved. Thats why they are very light and load fast.

Email Sender, Online Courses, Quiz Apps, Facebook Messenger
June - August / 2020
I learned about JavaScript and built the above mentioned apps to hone my skills and began working on my dream app which is designed to help people learn a new language without studying boring grammar rules and memorizing long vocabulary listsr. Most importantly, I bult my very first REACT app with a fully functional database called Firebase.
